## SKILLS

I am a strong creative thinker, with a background in the Arts and Architecture. I am capable of using most industry standard software such as the Adobe Creative Suite range. I am capable of coding by hand in a range of scripts and languages such as HTML, CSS, Javascript, PHP and ActionScript. I put great emphasis on producing standards compliant and forward looking markup and styles, integrating new technologies such as HTML5 and CSS3.

I am a very capable illustrator whether it be using traditional media such as pencil and paints or digital vector drawings.
